Segment wise performance is elaborated as under:

SUGAR DIVISION

During the period under review, the sugarcane crop was better than last year's corresponding period. For the crushing season, the Government of Sindh notified a minimum support price of Sugarcane at Rs.250/- per forty kgs of cane as against Rs.202/- per forty kgs notified last year.

Alhamdulillah during the current crushing season, the cane crop was good and the mill crushed 940,764 metric tons of cane and produced 98,110 metric tons of sugar. During the same period last year, the mill crushed 677,781 metric tons of cane and produced 68,623 metric tons of sugar. Production during the current period is higher than last year by 29,487 metric tons or 42.97 percent. The increase in production of sugar was mainly due to higher crushing volume and improvement in recovery rate to 10.43 percent as against 10.12 percent achieved last year. The condition of crops in the country was good due to natural rainfalls

and higher rates paid to growers last season. As mentioned in the half-yearly report, the production of sugar of the country during the current year is approximately 8 million tons which is far greater than the requirement of the country and as result the price of sugar has declining trend in the domestic market.

MDF BOARD DIVISION

During the period under consideration the MDF Board division produced 58,084 cubic meters of board in various thickness as against 65,714 cubic meters produced in the same period last year. The production is lower than previous period by 7,630 cubic meters or 11.61 percent and it is expected that the efforts are on to increase the production during the remaining period of the year in order to meet the demand of the market.

FUTURE OUTLOOK

It is expected that during the next crushing season, the cane crop in the country would improve due to the higher prices and timely payment paid to growers during the current season. A recent good spell of natural rainfall will also enhance the availability of raw material during the coming crushing season and the availability of water through irrigation system would also be improved during the remaining period the season till the commencement of the crushing season. It is expected that the Government would take a timely decision to allow the export of sugar which would improve the liquidity crunch of sugar mills and would be beneficial for the timely startup of the next crushing season.

Future outlook of MDF division appears to be sustainable as the products of the division have established its acceptability in the domestic and international markets also.

BOARD OF DIRECTORS

There was no change in the composition of Board of Directors during the period under review.

The Board of Directors wishes to assure its respectable stakeholders that dedicated efforts are being taken to achieve better results in Shah Allah. We pray to Almighty Allah to guide and help us forward to achieve our desired goals. (Ameen)

The Company owns and operates sugar, medium density fiber (MDF) board manufactring unit which are loacated at District Shaheed Benazirabad and Noushero Feroz in the province of Sindh. The total area of industry land which includes the main factory is spread over 207.25 acers.

2 Basis of Preparation

- 2.1 These condensed interim financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of :
 - International Accounting Standard (IAS) 34, Interim Financial Reporting, issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and
 - Provisions of and directives issued under the Companies Act, 2017.

Where the provisions of and directives issued under the Companies Act, 2017 differ with the requirements of IAS 34, the provisions of and directives issued under the Companies Act, 2017 have been followed. The condensed interim financial statements does not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the company's annual financial statements for the year ended September 30,2021.

3 Significant accounting policies and disclosures

- **3.1** The accounting policies and methods of computation followed for the preparation of these condensed interim financial statements are consistent with those followed in the preparation of the company's annual financial statements for the year ended September 30, 2021.
- 3.2 Due to the seasonal availability of sugarcane, the manufacture of sugar is carried out during the period of availability of sugarcane and costs incurred/accrued upto the reporting date have been accounted for. Accordingly, the costs incurred/accrued after the reporting date will be reported in the subsequent interim and annual financial statements.
- 3.3 Certain new IFRSs and amendments to existing IFRSs, effective for periods beginning on or after October 01, 2021, do not have any impact on the condensed interim financial statements, and are therefore not disclosed.
- 3.4 The preparation of these condensed interim financial statements requires management to make estimates, assumptions and use of judgements that affect the application of policies and reported amounts of assets and liabilities and income and expenses. Estimates, assumptions and judgements are continually evaluated and are based on historical experience and other factors, including reasonable expections of future events. Revisions to accounting extimates are recognized prospectively commencing from the period of revision. Judgements and estimates made by the management in the preparation of these condensed interim financial statements are the same as those that were applied to financial statements as at and for the year ended September 30, 2021.

Since the financial statements of Al Noor Modaraba Management (Pvt) Limited are not prepared except on year end June 30; and are not material hence no effect of results of Al-Noor Modaraba Management (Pvt) Ltd has been taken in this condensed interim financial statements, however in the case of Shahmurad Sugar Mills Ltd, the share of profit and other comprehensive income has been taken on the basis of its reviewed condensed interim financial statements for the half year ended June 30, 2022.

8. CONTINGENCIES AND COMMITMENTS

8.1 Contingencies

There is no material change in status of contingencies as disclosed in note No.24 (b) of the annual financial statement for the year ended September 30,2021.

- 8.1.1 During the period the Federal Board of Revenue (FBR) issued notices for conducting tax audits for multiple years commencing from 2016 to 2019 under section 177 of the Income Tax Ordinance,2001 and despite providing all records,submission of evidences and details, audit proceedings for the tax year 2016 were concluded by passing detrimental order under section 122(1)(5) of the Income Tax Ordinance 2001 whereby frivolous tax demand of Rs.8.857 billion for the year and no conclusion for other tax years has yet been made. The demand is based on arbitrary and illogical observations agaisnt which the company has preferred appeals to the Commissioner Inland Revenue (Appeal-II), Karachi which is pending for hearing. In the meanwhile, the Company also got stay orders from the Honorable Sindh High Court refraining the department to take coercive measures for recovery of the demand during the pendency of the Appeal. Since the demanded tax is not based on fact and records and in the view of tax advisor, favourable outcome is expected in the appeal,hence no provision has been made in the financial statements against said demands.
- 8.1.2 During the period the Assistant /Deputy Commissioner Inland Revenue issued show cause notice under section 161(1A) of the Income Tax Ordinance 2002 for the tax year 2016,2017 and 2019 and has passed order there under that the Company should have to charge and deposit tax u/s 236 H of the Income Tax Ordinance 2001 on the sale to unregistered buyers treating them as non-filers retailers instead of depositing tax u/s 236 G by treating unregistered buyers as whole sellers/distributors/dealers. The officer has created aggregate demand of Rs.76.314 million in respect of the above mentioned tax years. However the Company has filed Appeal before the Company filed appeal in tribunal and we confident that the matter will be decided in favour of the Company hence no provision is made in this respect.

14. FAIR VALUES

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e. an exit price) regardless of whether that price is directly observable or estimated using another valuation technique.

The Company while assessing fair values uses calcuation techinques that are appropriate in the circumstances using relevant observable data as far as possible and minimizing the use of unobservable inputs. Fair values are categorized into following three levels based on the input used in the valuation techinques:
